

The DECC Company

Protecting Your Components

www.decc.com

Liquid Coatings : Robotic Spray – Electrostatic Spray – Indexing Turntable Spray

Core Markets of DECC:

- Acid resistant Diesel turbo & EGR components
- High temperature Diesel/Automotive gaskets
- Anti-friction bearings for automotive and industrial components
- High volume rack/mask anti-corrosive coatings
- Anti-friction spindles for Office chairs
- Food grade coatings for dies, molds, blades and castings

Attributes of DECC:

- ISO 9001:2008 Certified
- CQI-12 Compliant (Required for Custom Coaters)
- Web based software (SaaS) streamlines our entire operation: ERP, QMS and MOM.
- Lean management and Continuous Improvement
- Specialty masking for low tolerance applications
- Industries served:
 - Automotive
 - Alternative Energy
 - Aerospace
 - Diesel /Heavy Truck
 - Food Service
 - Furniture
 - Medical
 - Military
- Shared Development Costs (D.O.E.'s)
 - In most cases samples are produced at no cost
- Green Initiatives:
 - 30% of DECC's business derived from Re-manufacturing
 - DECC uses State of the Art emission reduction equipment (RTO)
 - Renewable energy programs, wind, battery, and fuel cells
- Family owned for 50 years

Coating Types

- Corrosion Protection
- Chemical Resistance
- Heat Resistance
- Extreme Temperature Acid Resistant
- Reduced Coefficient of Friction
- FDA release Coating
- Noise Reduction
- Thermal Reduction
- Non-Stick (Release)
- Abrasion Resistant
- Squeak Prevention
- Cosmetic
- Functional
- Dry film Lubrication - PTFE, FEP, PFA, Graphite, Molydysulfide

Coating Suppliers

- The Magni Group
- Döerken
- Whitford Corporation
- Sherwin-Williams
- Henkel/Acheson
- Dow Corning
- DuPont
- Cavero Coating
